ABSTRACT

This guide lists information sources dealing with unidentified flying objects (UFOs). Not meant to be a comprehensive bibliography, this compilation is designed--as the name of the series implies--to put the reader "on target." Included are: (1) subject headings used by the Library of Congress, under which publications on this subject can be located in most card, book, and online catalogs; (2) books; (3) encyclopedias, handbooks, dictionaries, and directories; (4) bibliographies; (5) conference proceedings; (6) government publications; (7) abstracting and indexing services that index relevant journal articles and other literature; (8) periodicals that contain articles about unidentified flying objects; (9) representative periodical articles; (10) selected materials available in the Science Reading Room pamphlet box collection; and (11) addresses of additional sources of information.
